

# RELATIONSHIPS EDUCATION AND RELATIONSHIPS AND SEXUAL EDUCATION (RSE) POLICY

BirchfieldSchool

*To read in tandem with the following policies: Personal, Social Health Education (PSHE), Equal Opportunities, SMSC, Mental Well-being, Suicide, Education Post Birchfield, Anti-Bullying, Safeguarding and Behaviour Policies.*

## **A Introduction**

The school operates a comprehensive programme of Personal, Social, Health Education and the delivery of Relationships Education and Relationships and Sex Education is taught within that. Relationships Education is delivered in Years 1 to Year 6. Relationships and Sex Education (RSE) is taught in Years 7 and 8. The PSHE programme is geared to the ages of the pupils and the ethos of the school and the subject is led and coordinated by a member of the Senior Management Team. The PSHE programme of study is added for reference at Annex A, with the overview of Relationships Education and RSE highlighted in blue.

Due to lockdown in the Summer Term 2020, we were unable to consult with parents effectively on our Relationships Education and Relationships and Sex Education programme of study so this was taken forward to the Autumn Term and any feedback from parents taken into account. As a result, the programme will begin from November 2020.

The school's approach to Relationships Education and RSE within PSHE links closely with its school values, The Birchfield Way, which prioritises kindness, respect and courtesy alongside aspiration, diligence and resilience.

## **Definitions :**

**Relationship Education** in Years 1 to 6 focuses upon teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults. This starts with pupils being taught about what a relationship is, what friendship is, what family means and who the people are who can support them. Pupils are taught how to take turns, how to treat each other with kindness, consideration and respect, the importance of honesty and truthfulness, permission seeking and giving, and the concept of personal privacy. As they develop, they will learn to establish personal space and boundaries, showing respect and understanding the differences between appropriate and inappropriate or unsafe physical, and other, contact which then takes place in Years 7 and 8.

**Relationships and Sex Education (RSE)** builds upon Relationships Education in Years 1 to 6 and develops pupils' understanding of what healthy and nurturing relationships are. RSE is taught in Years 7 and 8. Pupils will learn about marriage or other committed relationships. They will be taught the importance of staying safe in intimate relationships and the effects that can have upon their wellbeing if they are not in a positive relationship. Pupils will be taught the law on sex, sexuality, and the dangers of sharing content online. Gender, sexual orientation will also be addressed, in a sensitive and timely manner which will also encompass the Equal Opportunities Act 2010. Sexual Health will build upon the pupils' knowledge of how their bodies change during puberty and the importance of self-respect and body image, whilst leading a safe and healthy lifestyle.

## **Faith Perspectives**

The school will take into account the religious background of pupils when planning teaching and comply with guidance for protected characteristics under the Equality Act 2010, which includes religion and faith. In all its teaching, the school will teach what the law allows and does not allow and the wider implications of decisions pupils make.

The policy reflects the ethos and aims of the School in seeking:

- To provide the highest standards of academic teaching and pastoral care for children in our school in our care.
- To provide a stimulating, supportive environment, which addresses all aspects of the children's spiritual, moral, social and cultural development.
- To promote excellence through equipping young people to accept responsibility and make a positive contribution to the community and society.
- To encourage lifelong learning
- To understand the importance of manners, respect for each other and the values of working and living together productively.
- To develop self-esteem, independence and self-confidence.
- To maintain an environment in which children are safe, happy and motivated.
- To provide a challenging environment for holistic growth in 'Mind, Body and Spirit.
- To encourage mutual respect, tolerance and understanding.
- To provide the greatest opportunities for personal and professional growth who live and work in our school.

## **B Aims**

The aims of Relationships Education in Years 1-6 are to:

- (i) Develop confidence in talking, listening and thinking about their feelings and relationships
- (ii) That pupils are supported through their physical, emotional and moral development
- (iii) Pupils are able to name parts of the body and describe how the body works
- (iv) Pupils are able to deal with difficult moral and social questions
- (v) They respect themselves and others and move with confidence from childhood through adolescence to adulthood
- (vi) They learn how to avoid and not initiate exploitation and abuse e.g. bullying

- (vii) They learn how to make choices and have an awareness of consequences based on appreciation of difference and absence of prejudice
- (viii) They learn how to participate in positive relationships in a considerate and sensitive way, valuing respect and care for self and others
- (ix) They learn how to cope with loss at the end of relationships
- (x) They explore individual and moral issues and develop decision making skills based upon critical thinking
- (xi) They can protect themselves and ask for help and support
- (xii) They learn and understand physical and emotional development at appropriate stages
- (xiii) That are prepared for puberty

The aims of the RSE in Years 7 & 8 are to enable the children to:

- (i) Recognise the characteristics of positive and healthy relationships in all contexts (including online), including trust, respect, honesty, kindness, generosity, boundaries, and privacy. This includes all types of relationships.
- (ii) the choices involved in improving or supporting respectful relationships
- (iii) how stereotypes, particularly those based on sex, gender, religion, sexual orientation or disability, can cause damage, e.g. how they might normalise or non-consensual behaviour
- (iv) that in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including people in positions of authority and due tolerance of other people's beliefs.
- (v) About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying and how and where to seek help.
- (vi) The type of behaviour in relationships that can be criminal, including violent behaviour and coercive control.
- (vii) The legal rights and responsibilities regarding equality, with reference to the protected characteristics defined in the Equality Act 2010, and that everyone is unique and equal.

### **C Procedure**

The Relationships, Sex and Health Education's programme interrelate with citizenship, science, computing, food technology and PE curricula. The school will integrate these subjects appropriately. It is important to note that there is no right to withdraw pupils from any part of the national curriculum. Each pupil will receive 1 hour per week of PSHE, to include Relationships Education and RSE, as relevant, within the agreed programme of study. This is allocated within their timetable and wherever possible will be taught by their form tutor.

For pupils in the Reception class who come under the Early years Framework, this is delivered as PSED (Personal, Social and Emotional Development) and will be taught through cross curricular links, during collective worship and other activities or school events (residential visits, themed days and curriculum themed week, special activities planned to allow the children to work together under different circumstances and meetings). All of these activities provide valuable links with parents and members of the outside community.

Development of the school's Relationship Education/RSE policy has taken into account the Relationships Education, Relationships and Sex Education (RSE) and Health Education Statutory guidance for governing bodies, proprietors, head teachers, principals, senior leadership teams, and teachers as well as the PSHE Association Key Themes and Guidance. Staff have received training from the Head of PSHE in October 2020.

**Pupil Engagement** : A consultation has also been carried out, whereupon the views of our pupils have been included within this policy.

#### **D Teaching and Learning**

We use a range of teaching and learning styles with an emphasis on active learning by including the children in discussions, investigations and problem-solving activities. Relationships Education and RSE will be provided in a variety of ways, to reflect the age and stage of the pupils and ensure a whole school approach to the subject. The school will also ensure that the needs of all pupils are appropriately met, and that sexual orientation and gender reassignment are protected characteristics and the importance of equality and respect. Pupils may be taught by specialist male and female teachers for specific areas of the curriculum, as deemed appropriate.

The curriculum will be taught in a factual, non-judgmental way which allows scope for young people to ask questions, either publicly, or anonymously through Communication boxes in classrooms. It will take into account any local or national issues arising in the community and include these in an age appropriate and relevant way.

- (i) there will be a timetabled curriculum session, in order to develop themes and share ideas e.g. circle time
- (ii) opportunities will be found within other curriculum areas e.g. links with drama and role-play, debate and discussion in English, working together in pairs or small groups, improving health in physical education, health and drug issues in Science and beliefs, values and practices in religious Studies
- (iii) activities will be provided as group, class or school events and initiatives e.g. community projects, school productions, musical assemblies, assemblies for parents, celebration assemblies and residential trips
- (iv) at playtimes and lunch times opportunities exist for playing cooperatively using play equipment and the buddy system
- (v) the children are involved when visitors come into school
- (vi) in the Early Years Foundation Stage, (Personal, Social and Emotional Development (PSED) is related to the objectives set out in the Early Learning goals matching the aim of developing a child's personal, emotional and social development.
- (vii) Where possible the curriculum is delivered through oral and practical activities. Where appropriate the pupils will record or investigate their work using a variety of mediums including books, digital media such as the internet and through the use of specific adult's e.g. medical agencies, police. These

opportunities help to develop their learning and enquiring skills and assists in equipping them for adult life.

### **E Pupils with Special Educational Needs**

We teach RE and RSE to all our pupils, regardless of their ability. Learning opportunities are matched to the individual needs of children with difficulties and staff are encouraged to speak to the Head of PSHE if they have any concerns about a pupil's ability to access the subject area. Activities and debates challenge our most able pupils to formulate personal views based on evidence they research and discuss. The school will be aware that some pupils are more vulnerable to exploitation, bullying and other issues on account of their SEND.

### **F Resources**

A range of resources assist with supporting and enhancing learning in Relationships Education and RSE, encouraging emphasis upon speaking and listening skills. The school subscribes to the PSHE Association website for teacher access to schemes of work and resources. The Head of PSHE has created a library of resources, both online and in the form of textbooks.

### **G Assessment, recording and reporting**

Although there are no formal assessments for Relationships Education and RSE, teachers assess pupil's work based upon oral participation and confidence in their level of response to group participation and independent outcomes in worksheets and activities. This information is recorded in their exercise books and formulate future planning. Staff assess performance and confidence in the subject through key performance indicators on a half-termly basis. Any issues which relate to welfare or pastoral care of the children as part of a discussion are either discussed at a staff meeting or brought to the attention of the Assistant Head, Headmistress and /or parents.

We keep records of the children's contribution towards the life of the school and community in written and photographic form. Our Award Assemblies, the appointment of Friendship Ambassadors within the School Council Anti-Bullying Council and half-termly Pupil Ambassador Awards celebrate personal achievement and rewards thoughtful, caring behaviour.

### **H Monitoring and Review**

Regular book trawls take place by the Head of PSHE in tandem with the Assistant Head to monitor the teaching of the subjects. The subject coordinator records comments based upon their findings of the work scrutinized as well as the way the marking has been carried out and offers teachers advice for development.

Parents, staff and governors will be part of any review process of changes to the programme of study. The policy will be renewed on an annual basis or earlier if statutory guidance changes.

### **I Confidentiality**

Ground rules will be established prior to the lessons. Pupils should not discuss any information outside of the classroom, especially in within school, as younger children may overhear and spread misinterpreted versions. Pupils may not discuss personal experiences within class. However, if a pupil discloses any information, then the teacher will take the necessary form of action in accordance with the school safeguarding procedures. Any

visitors will also be informed of the need for confidentiality in lessons in advance of arrival and how safeguarding matters are reported in our school.

### **Working with external agencies**

To enhance the teaching of various subjects within Relationships Education and RSE, the school will aim to organise external agencies to visit e.g. NSPCC. These may be through workshops, or guest speakers and will provide the pupil with specialist knowledge and a different way in which the pupil can interact with the subject content.

Any visitor to the school will be vetted against their organisation's credentials. The teacher, or Head of PSHE will liaise with the organisation and ensure the content of their lesson or talk which will be submitted to the Headmistress on a risk assessment for authorisation. Workshop, lesson plan and materials are age-appropriate and cater for all of our special educational needs and disabilities (SEND). A teacher will remain present during their time with the pupils.

### **Right to be excused from relationships and sex education**

Section 405 of the Education Act 1996 allows parents to withdraw their children from the sex education aspects of study. This does not include sex education objectives that are in the Science National Curriculum.

If a parent requests that their child be excused from any area of the sex education programme, then they must put their request in writing in the first instance. The head of PSHE will then meet with the Headmistress and, with the child if relevant, and a meeting will be organised to discuss the parents' concerns or answer any questions that may exist. The school will outline the benefits and possible detrimental effects of their child feeling excluded if they were to hear their peers' discussing the content of the lessons. It will be important to ensure that the child's wishes are understood and the purpose of the curriculum. This could be a skewed version of what was actually taught in class, rather than hearing what was actually said by the teacher which may be misleading. However, this risk may be mitigated if parents choose to teach the sex education programme themselves. All communications will be documented and kept by the school.

If, after the discussions parents still wish to remove their child from the sex education elements of the programme, then their request will be granted. Consequently, the child will receive purposeful, and appropriate education. Pupils may not be excused from Relationship Education or Health Education. Pupils who are withdrawn will receive purposeful education during that period.

This policy is posted on the school's website. Parents wishing to obtain a hard copy of the policy should enquire at the school office.
